

## Kornit Digital's Vulcan wins SGIA's 2017 Product of the Year Award

September 6, 2017

**Kornit's fully digital garment printing solution gives screen printers the power and flexibility to benefit from the latest market trends**

ROSH-HA'AYIN, Israel, Sept. 06, 2017 (GLOBE NEWSWIRE) -- Kornit Digital (NASDAQ:KRNT) has announced that it received the SGIA's prestigious 2017 Product of the Year Award for the Kornit Vulcan, in the category "Direct-to-garment printers (Color Shirt – Not White)". The Vulcan will be on display at the 2017 SGIA Expo in New Orleans, in Kornit's booth # 1617.

### Kornit Vulcan: the profitable alternative to screen printing carousels

Kornit's Vulcan, the most advanced direct-to-garment printing solution of its kind, allows garment decorators to produce small to medium print runs in a profitable way. This heavy-duty production system is targeted to screen printers producing collections and short runs for retailers and promotional purposes. The Vulcan offers the lowest cost per print for run lengths between 50 and 500 garments. Unlike Kornit's traditional direct-to-garment printing systems, the Vulcan sports a conveyor system for the printed pallets with pre-treatment, white and CMYKRG printing taking place in parallel. The Vulcan's unique sequential architecture allows it to print up to 250 garments per hour, both on dark and light garments.

### The SGIA Award

More than 70 companies competed in the 2017 Product of the Year Awards, submitting 222 entries over the competition's 49 categories — the largest field of competitors in the awards program's history. Ray Weiss, SGIA's Digital Imaging Specialist, coordinated the yearly awards program and said competition was tight. "The judges struggled to choose winners in the output device categories, because the print quality was so good and so close from entry to entry. That's great news for the printing industry," said Weiss. "Kornit's award was well-earned!"

The coveted Product of the Year jewel awards will be presented in a special ceremony Monday, October 9, in conjunction with the 2017 SGIA Expo, and exhibitors will be able to display them in their booths.

### About Kornit Digital

Kornit Digital (NASDAQ:KRNT) develops, manufactures and markets industrial digital printing technologies for the garment, apparel and textile industries. Kornit delivers complete solutions, including digital printing systems, inks, consumables, software and after-sales support. Leading the digital direct-to-garment printing market with its exclusive eco-friendly NeoPigment printing process, Kornit caters directly to the changing needs of the textile printing value chain. Kornit's technology enables innovative business models based on web-to-print, on-demand and mass customization concepts. With its immense experience in the direct-to-garment market, Kornit also offers a revolutionary approach to the roll-to-roll textile printing industry: Digitally printing with a single ink set onto multiple types of fabric with no additional finishing processes. Founded in 2003, Kornit Digital is a global company, headquartered in Israel with offices in the USA, Europe and Asia Pacific, and serves customers in more than 100 countries worldwide.
