ROSH-HA'AYIN, Israel, Aug. 06, 2019 (GLOBE NEWSWIRE) -- Kornit Digital Ltd. (NASDAQ: KRNT), a leading provider of digital printing solutions for the global printed textile industry, today reported results for the second quarter, ended June 30, 2019.

Second quarter 2019 revenue increased by 22.3% to \$43.9 million, net of \$2.4 million attributed to the non-cash impact of warrants, compared to \$35.9 million, net of \$1.5 million attributed to the non-cash impact of warrants, in the prior year period. Increased revenue in the quarter was attributable to widespread growth of systems, services and consumables sales across geographies, particularly in the North American and Asia Pacific regions.

On a GAAP basis, second quarter operating loss was \$(0.2) million, compared to the prior-year period operating income of \$1.6 million. Non-GAAP operating income in the second quarter was \$2.7 million net of \$2.4 million attributed to the non-cash impact of warrants, constituting 6.2% of revenue, net of 490 basis points attributed to the non-cash impact of warrants, compared to \$3.2 million, or 8.8% of revenue, in the prior year period. The decrease in operating income was the result of the more significant impact of warrants during the period, increased sales and marketing expenses driven by marketing events in the quarter, and a less favorable product mix.

Ronen Samuel, Kornit Digital's Chief Executive Officer commented "Our second quarter performance demonstrates our laser-focused commitment to execution. The momentum we continue building through the introduction of innovative new solutions and the continued investment in scaling our go-to-market allowed us to deliver another quarter of record quarterly sales."

Samuel added: "We are excited and encouraged by the continued demand for our HD platforms and the outstanding new product introduction of the Atlas, Poly Pro, and Presto. We are entering the second half of the year with good momentum. I am encouraged with the number of ongoing engagements we have with some of the world's leading brands and our relationship with our strategic customers is as strong as ever. We remain focused on executing on our strategic initiatives and continue to progress toward our long-term goal of becoming a \$500 million run-rate sales business by the end of 2023."
